Chairman of the Board, MIZUNO Corporation

Message from Mr. Masato Mizuno,  
WFSGI Vice-President representing Asia  
Chairman of the Board, Mizuno Corporation

On the occasion of 30th anniversary of the founding of TBS Group Corporation, allow me, as WF-SGI Vice-President representing Asia, to extend our warm congratulations to our dearest friend, George.

Mr. George Wood worked his way through university and achieved success by his own efforts. As a result, now he plays an active part as a young leader of the group, which goes up also to about 40 companies as a TBS group.

I think that the key to success in his life is ...

Firstly, George is a hard-working man who has earned a Doctorate of Business Administration from Victoria University Switzerland in 2005 while running his business.

Secondly, he is extremely excellent in winning the hearts and minds of the people with his fascinating personality.

Now, he has lots of significant responsibilities not only for TSMA as a young leader in Taiwan, but also for WFSGI as an active steering member in several committees and forums.

On the other hand, George never became conceited his success, he also exercises leadership in charitable works by establishing a foundation from the profits of his business. I have great esteem for his admirable attitude and his family-oriented love.

Even in the information technology era, since he has remarkable communication ability, in the group, there are lots of talented people who love George's humanity. I believe that the well established TBS Group will continue its growth under his able leadership. Also, I am sure that his business, social contribution and family-oriented heart will be grown in the coming ten years. I hope we can celebrate TBS's fortieth anniversary.

Masato Mizuno  
Chairman of the Board, MIZUNO Corporation
