Dear George,

We were delighted to read about the Milestones of the TBS Group. Your wonderful struggle from rags to riches and your perseverance in studying for a doctorate are the stuff that people write books about.

Also your wonderful work for various charities is highly laudable.

When I was at Taiwan Night at ISPO Munich earlier this year, I publicly announced that I had a dream that I wanted to be like you.

The more I know about you, the greater my belief that you are a man to be emulated.

With very warm regards & sincere goods wishes on the 30th Anniversary of TBS Group Corporation.
