

Innovation Never Stops at TBS Group Corp. — Small Giant Marching Forward

Dr. Chii-Ming Yiin
Minister
Ministry of Economic Affairs

TBS Group Corp. will be celebrating its thirtieth (30th) anniversary. It is a great honor for me to congratulate TBS Group Corp. for this achievement and wish it every success in the future.

Small Giant in a Star Industry

Health is a driving force behind the growth of the fitness and sports product market. The world market value of sports-related products was about 64.2 billion US dollars in 2005, and the market will grow to 72 billion US dollars in 2010 - a 12.1% gain. The government sees this industry as an important part in our life. The sports and leisure-related industry is one of the twelve key industries in the "Service Industries Development Framework and Action Plan" formulated by the Council for Economic Planning and Development, Executive Yuan. To foster growth in this sector, the Small and Medium Enterprise Administration has included the digital leisure sports and multimedia industry in the four-year "Innovative Industrial Clusters Development Program" since 2008.

Starting from a producer of snooker-related products, TBS has expanded into indoors and outdoors leisure and sporting goods market. TBS has always emphasized putting the customer first, upgrading quality, providing innovative service, and developing sound business. It also believes that the "market leads design, design leads production, and production supports the market." On this basis, TBS Group Corp. has achieved great success with international customers such as Wal-mart, K-mart and Sears.

For its product excellence, TBS was awarded the first annual "Cross-Century Golden Crown Award" as well as various foreign buyers' "Top Supplier," "Excellent Service of the Year," "Partnership-in-Progress" and "Supplier Awards" over the past thirty years.

Marching Forward for Excellence

Taiwan faces tough competition in the global market. It is crucial for companies like TBS to adjust their business strategy to strengthen their competitiveness. I hereby take this opportunity to encourage all the TBS employee keep innovating under the leadership of Chairman Wu. I also hope that TBS will continue to move forward and thrive in the leisure and sporting goods industry.
